NEXT LEVEL IMAGING

PiX Rhino

We are glad to introduce the Rev C of our Rhino Armor for our suite of Digital Detectors.

Some of the key upgrades with Rev C include:

- *Lighter weight*
- *Mounting kit for Ferrous and Non-Ferrous circular objects/pipes*
- *Snap on handles for mounting*
- *Insert for Lead & Copper sheets*
- *Thinner profile*
- *Easy snap on battery cover*
- *Beautiful carry case*

These add to the already long list of features of Rev B of existing armor that are listed below:

- *IP 68 Rating (fully waterproof)*
- *Handles to be used in both portrait and landscape mode*
- *Rugged Carbon fiber frame*
- *ABS body and quick release battery cover*
- *DR On/Off Switch*
- *Quick Mount on DR Tripod Stand (available as an option for Concrete & Aerospace Inspection)*

& LOTS MORE!!

Our systems are designed with feedback from clients with decades of field experience with the goal to make portable X-Ray imaging a smooth experience. Complete design, manufacturing & assembly is done in WA, USA.

Give us a call at +1 323 397 8254 OR email us at Sales@PacificNDT.com to find out more or request a demo.
